

INAMP launches the professional development course "Modernization of local public administration"

The National Institute of Public Administration and Management (INAMP) invites representatives of local public administration authorities to participate in a professional development course dedicated to strengthening administrative and organizational capacities to modernize internal processes and increase the quality of local public services.

The program aims to develop the following skills:

- the integration of the principles of good governance, ethics and respect for human rights in the activity of local public administration;
- efficient management of local public finances and institutional resources;
- analysis of the institutional capacity and optimization of the functioning of local public authorities;
- application of modern management and local governance tools.

Participants will acquire knowledge and practical tools necessary for strengthening institutional performance, streamlining administrative processes and providing quality public services, oriented to the needs of citizens.
